

## PRODUCT CATALOGUE 2026

**OUR COMPRESSOR SPARES ARE COMPATIBLE WITH:  
SABROE, GRASSO, MYCOM, VILTER, HASEGAWA, GRAM, CARRIER,  
YORK, STAL, DAIKIN, BOCK, BITZER, TRANE, DORIN & MANY MORE.**

**CYLINDER  
LINER**

Cylinder Liners are made from high-grade materials, these liners offer exceptional wear resistance and effective sealing.

**PISTON**

Pistons are engineered to deliver optimal performance in industrial compressors, facilitating effective compression and overall efficiency.

**CONNECTING  
ROD**

Connecting Rods are meticulously engineered to withstand high loads and ensure smooth motion transfer within industrial compressors.

**VALVE  
PLATE**

Valve Plates are essential for controlling the flow of gas and air in compressors, ensuring efficient operation.

**VALVE  
REED**

Valve Reeds play a crucial role in regulating the flow of air and gas within compressor systems.

**VALVE  
ASSEMBLY**

Valve Assemblies and associated components provide reliable performance.

### **CRANK SHAFT**

Crankshaft is the heart of any compressor, and our high quality crankshafts are engineered to deliver optimal performance.

### **BEARING & THRUST WASHER**

Bearings and Thrust Washers are engineered from materials such as steel-back white metal, copper, lead & aluminum alloys, and bronze.

### **BRONZE BUSH & RING**

Bronze Bushes and Rings are manufactured for durability, wear resistance, and excellent load-bearing capabilities.

**OIL PUMP  
&  
GEAR**

Oil Pumps and Gears are critical for maintaining consistent oil flow and optimal lubrication.

Shaft Seals provide essential sealing solutions, preventing leaks and ensuring efficient operation.

**SHAFT SEAL**

**SLIDE RING**

Slide Rings are made from high-quality elastomers to withstand high pressures and temperatures.

**UNLOADER**

Unloaders allow release of pressure during idle periods, reducing energy consumption and wear.

Solenoid Valves are essential for controlling the flow of fluids, offering reliable operation and precise control.

**SOLENOID VALVE**

**HOUSING  
&  
COVER**

Housings and Covers are meticulously crafted to provide protection and stability to compressor components.

**SPRING**

Springs are vital components that provide tension and support, ensuring proper operation and alignment of moving parts.

Piston Rings are designed to create a reliable seal between the piston and cylinder wall, preventing leakage.

**PISTON  
RING**

**GASKET**

Gaskets are precision manufactured to create a perfect seal & ensuring minimal leakage.

**HEATER**

Heaters are designed to maintain optimal operating temperatures, ensuring efficient compressor starts.

Heater Terminals provide reliable connections and steady heat transfer, boosting compressor heater performance and life.

**HEATER  
TERMINAL**

**SHUT-OFF  
VALVE**

Linear-motion or threaded cone-sealing valves designed to handle high vibration and line pulsation.

**FILTER  
&  
STAINER**

Filters and Strainers are designed to keep compressors running smoothly by capturing debris, contaminants and particles.

Flywheels are engineered to stabilize and enhance compressor operations and provide smooth movements.

**FLY  
WHEEL**

**OIL LEVEL  
SIGHT GLASS**

Ensure accurate compressor oil monitoring with our oil level sight glasses.

**k-nine**  
SPARES PVT. LTD.  
Ultimate in Compressor Parts Solution

### WHY CHOOSE US?

WE CAN DEVELOP SPARES AS  
PER ANY GIVEN SAMPLE & DRAWING

WE ALSO SUPPLY OVER & UNDER SIZED SPARES

WE CAN ALSO DEVELOP SCREW COMPRESSOR  
SPARES ON DEMAND

STRINGENT QUALITY CONTROL & HUGE  
READY STOCK

FAST & SECURED  
WORLDWIDE SHIPPING

WE ALSO SELL  
COMPRESSORS  
ON AN "AS-IS,  
WHERE-IS" BASIS

**MANUFACTURER &  
EXPORTER  
OF AFTERMARKET  
HVAC OEM-GRADE  
COMPRESSOR  
SPARE PARTS**
